

March 13, 2020

2:45 p.m.

**To help keep our community safe,
all Naturally Boulder events in March and April will be online**

Hello, Naturally Boulder Community,

This is yet another online message about postponements due to COVID-19. In times of crises, well-functioning communities gather together to provide and receive resources and even peace of mind. And we will, indeed, continue to gather as a thriving NB community. It's what we do so well. But, at least through May, we will assemble virtually to continue to learn and network. Together, we'll model the resiliency of this organic and natural products industry.

Naturally Boulder is:

- Offering free access to our March and April events as we host them online
- Providing full refunds to people who had already registered
- Postponing our 16th annual Spring Fling and will keep you informed with the party plans.

We love our community and we prioritize your health above all. We are closely monitoring this rapidly evolving pandemic and will immediately notify registrants of event changes should they become necessary. We thank our colleagues at the Boulder Chamber for assembling this [COVID-19 Business Preparedness Resource](#).

Be well, friends.

- Naturally Boulder Staff and Board of Directors
