THE FORUM SERIES IS UNIQUE

Available to participants by invitation only, who share similar roles at different companies.

→ This design fosters an intimate setting in which the participants develop a valuable closeness. The security of the group setting allows greater participant openness, transparency, and honesty — in both professional and personal aspects of their lives. Many veteran Naturally Boulder members have experienced their greatest organizational benefits through the Forum Series. As intended, each Forum Series develops its own attributes and virtues but all possess common qualities:
